## FULBRIGHT FINLAND

The Fulbright Finland Foundation is an independent not-for-profit organization based in Helsinki, Finland. Its purpose is to promote a wider exchange of knowledge and professional talents through educational contacts between Finland and the United States. The Foundation collaborates with a range of government, foundation, university and corporate partners on both sides of the Atlantic to design and manage study and research scholarships, leadership development programs and internationalization services.

Fulbright Finland supports the internationalization of education and research in Finland, and helps U.S. and Finnish institutions create linkages. Under its Internationalization Services the Foundation organizes themed study tours to the United States for Finnish higher education experts, runs the highly popular Fulbright Speaker Program, the Fulbright Dialogues series, and the Transatlantic Roundtables, as well as organizes two national Fulbright Seminars every year.

The Foundation is funded by the Finnish Ministry of Education and Culture, the U.S. Department of State, the Finland-America Educational Trust Fund, private foundations, Finnish and U.S. higher education institutions, alumni of the Fulbright Finland programs, and private donors. Over 70% of the Foundation's core funding originates from Finland, and advancement, fundraising and sponsored grants are a central part of the operation. A key strength of the Fulbright Finland Foundation is the consistent strategic engagement of the alumni. 5500 Finns and Americans have received a grant from the Finnish-American program since its inception in 1949 and the Foundation runs an active and rapidly growing alumni network in both countries.

The Board of Directors of the Fulbright Finland Foundation consists of eight members appointed by the Finnish Ministry of Education and the U.S. Embassy in Finland. The U.S. Ambassador to Finland serves as the Honorary Chair of the Board. The Foundation office in Helsinki, the Fulbright Center, is managed by the Foundation's CEO together with a staff of six.

The Fulbright Finland Foundation awards grants to approximately 90 Finnish and American students, academics, and professionals annually. This year, approximately 45 Finns participate in the Finnish-American Fulbright program. 36 of these Finns, featured in this catalog, have received a Fulbright Finland grant to lecture, conduct research, study, or teach in the U.S. In this catalog, you can also find six Study of the U.S. Institute program grantees, who participated in short-term academic programs at U.S. universities during the summer 2017.

Please contact Fulbright Finland Foundation if you wish to contact a Fulbright grantee.
