THE FULBRIGHT CENTER

The Fulbright Center specializes in cultural exchange between Finland and North America. It awards grants for academic exchanges between Finland and the United States, advises on study and research opportunities in the United States and Canada.

The Fulbright Center is a non-profit organization funded by the Finnish Ministry of Education and Culture, the American and Canadian governments, and a Trust Fund founded by the Finnish and U.S. governments. The Fulbright Center is governed by an eight-member Board of Directors, with equal Finnish and American representation. The Finnish members are appointed by the Finnish Ministry of Education and Culture and the U.S. members by the American Embassy in Finland. The U.S. Ambassador to Finland serves as the Honorary Chairperson of the Board.

The Fulbright Center awards grants to close to 90 Finnish and American students, academics, and professionals annually. This year, 29 Americans have received a Fulbright grant to lecture, conduct research, study, or teach in Finland. In addition, the Center expects to award approximately 10 short-term grants during the academic year.

Please contact the Fulbright Center should you wish to contact a Fulbright grantee or invite a grantee to lecture at your university.

PHILOSOPHY

Core Fulbright Scholar Program

SPECIALIZATION:

Aesthetics, especially the Philosophy of Music

FULBRIGHT PROJECT TITLE:

The Philosophy of Music Education: An International Collaboration

ACADEMIC TRAINING:

- Ph.D., 1979, University of Toronto
- M.A., 1973, University of Toronto
- B.A., 1968, Tufts University

PROFESSIONAL BACKGROUND:

I am by training a philosopher and a professional musician. As a philosopher, I have advanced what I call a “praxial” approach to the philosophy of music trying to reassess conventional philosophical approaches to questions in the philosophy of music by situating discussions more contextually in a wider range of musical practices than is the norm in Anglo-American philosophical discourse. This approach is reflected in my writings on musical production (performance, improvisation, creativity, personal and musical authenticity, the influence of technology, etc.), on global musical practices (including Indian and Vietnamese music and on jazz), on the role that race, class, gender, and disability play in musical practice, on the various “worlds” of music (worlds within musical works, between musicians, between musicians and the public, and the place of music within human affairs generally), and on philosophical aspects of music therapy. I have had a long-standing interest in the philosophy of music education.

I am currently Emeritus Professor of Philosophy at Temple University. I have also taught at the University of Louisville (USA), the University of Toronto (Canada), the University of British Columbia (Canada), the University of Calgary (Canada), and the University of Music and the Performing Arts (Graz, Austria). I was the founding Director of the Center for the Humanities at the University of Louisville, the Center for the Humanities and the Center for Vietnamese Philosophy, Culture, and Society at Temple University. I am currently a Senior Scholar at the Vietnamese Center at Temple.
